

Did you know?

Subsidiary Cassiopea SpA

Cosmo is a pharmaceutical company focused on developing and commercializing products to treat selected gastrointestinal disorders, to improve endoscopy quality measures through aiding the detection of colonic lesions, and to treat selected dermatological conditions. Cosmo develops and manufactures products which are distributed globally by selected partners. Clascoterone solution is in late stage development for the treatment of androgenetic alopecia (AGA) in males. Clascoterone solution is believed to address AGA by directly inhibiting testosterone and DHT binding to local hair follicle androgen receptors. If approved by the FDA, Clascoterone solution has the potential to be a first in class topical androgen receptor inhibitor for AGA and the first drug with a new mechanism of action for the treatment of AGA in over two decades.

About Lilly

Lilly is a medicine company turning science into healing to make life better for people around the world. We've been pioneering life-changing discoveries for nearly 150 years, and today, our medicines help more than 51 million people across the globe. Harnessing the power of biotechnology, chemistry and genetic medicine, our scientists are urgently advancing new discoveries to solve some of the world's most significant health challenges: redefining diabetes care; treating obesity and curtailing its most devastating long-term effects; advancing the fight against Alzheimer's disease; providing solutions to some of the most debilitating immune system disorders; and transforming the most difficult-to-treat cancers into manageable diseases. With each step toward a healthier world, we're motivated by one thing: making life better for millions more people. That includes delivering innovative clinical trials that reflect the diversity of our world and working to ensure our medicines are accessible and affordable. NUTRAFOL®

Nutrafol is the #1 Dermatologist recommended hair growth supplement brand that pioneered the hair wellness category with its integrative, science-backed approach to hair health. In multiple clinical studies, Nutrafol daily hair growth Nutraceuticals have been shown to improve hair growth in both men and women by multi-targeting the root causes of thinning hair, including stress, hormones, metabolism, nutrition, aging and lifestyle.

Nutrafol's clinically effective hair growth Nutraceuticals use a patented formulation of medical-grade botanicals and standardized ingredients to support whole body wellness from within. Continuing to lead the industry in hair health innovation, Nutrafol recently introduced Scalp Microbiome Support products - exfoliating mask, shampoo, conditioner, and essence - to prime, purify and balance the scalp microbiome and provide multi-layer protection to strengthen hair and defend against damage. For more information on Nutrafol's natural approach to hair wellness and expanding customized solutions, visit www.nutrafol.com/professionals.

The AHRS Seal of Recognition Program was created to inform physicians and consumers about products whose quality and effectiveness are beneficial in some aspect in promoting healthy hair or scalp, in diagnosing or treating hair or scalp disease, in diagnosing or treating hair loss, or in stimulating or inhibiting hair growth.
